

## About the artist, Ron Nyisztor

Ron Nyisztor is a mid-career Western Australian artist working with a wide range of materials and subjects; he has been exhibiting regularly since 1989. His consistent practice involves discarded building materials being used as the subjects for paintings and also as the support or ground for actual paintings.

As still life subjects for paintings the found objects are incorporated into dynamic compositions. The mundane subject matter used in his work attains compelling intrigue; it communicates a sense of the metaphysical expressed through familiar and extra-ordinary means.

Ron Nyisztor has artwork in the collections of the Art Gallery of Western Australia; Kerry Stokes Collection; Federal Court of Australia; Edith Cowan University; Artbank; Bankwest; ANZ Bank; Industrial Relations Court of Australia; National Native Title Tribunal (WA); Princess Margaret Hospital; Royal Perth Hospital; and in private collections within Australia, UK, USA, Kenya, Japan, Germany and Austria.
